December 22, 1966

Dr. Walter R. Reitman
Department of Psychology
The University of Michigan
Ann Arbor, Michigan

Dear Walter:

Unfortunately, I got interested in several of the questions I am raising in my Michigan paper, and that always means a delay. Since I will not have a complete draft until after the Holidays, I am sending along, for you and John Platt, a copy of a fairly detailed outline, and a very rough draft of the first five pages or so—which carries us through about II A on the outline. Will you transmit a copy to John, along with the enclosed note?

With best regards,

Cordially yours,

Herbert A. Simon
Professor of Computer Sciences and Psychology
